PELCRA Team

Team leader

Prof. Piotr Pęzik

Piotr Pęzik received his MA and PhD in linguistics from the University of Łódź. In the years 2006-2009 he was as a member of the text mining group at the European Bioinformatics Institute in Cambridge, UK. Piotr has authored a number of publications and tools in the field of Information Extraction and Information Retrieval. As a member of the PELCRA group, he was responsible for the development and implementation of the PELCRA Reference Corpus of Polish as well as the [http://nkjp.uni.lodz.pl/ PELCRA Search Engine for NKJP]. Recently, he has been working as a member of the CLARIN-PL and PLLuM consortium. **E-mail:** piotr.pezik@gmail.com; piotr.pezik@uni.lodz.pl **Home page:** http://pezik.pl

Active team members

Prof. Anna Cichosz

`Historical Linguistics` Anna Cichosz specialises in historical linguistics. Her academic interests include history of English and other Germanic languages, mechanisms of syntactic change, Construction Grammar, early English morphosyntax and phraseology. She has been involved in the creation of various corpus-based tools for the study of historical English (e.g. the VARIOE dictionaries of Old English, the MELange morphological dictionary of Middle English and the LLEMETIZER for Early Modern English) and Polish NLP resources (e.g. Spokes-Biz and DiaBiz corpora and the PLLuM language model). **E-mail:** anna.cichosz@uni.lodz.pl

Inż. Filip Żarnecki

Filip Żarnecki is an NLP/ML engineer and researcher at the University of Lodz. His work focuses on adapting, fine-tuning and evaluating large language models for corpus processing, analysis and information extraction, building on earlier work with encoder and sequence-to-sequence models such as BERT and T5. He is a co-creator of the Polish national PLLuM family of language models. **E-mail:** filip.zarnecki@filologia.uni.lodz.pl

Dr Izabela Grabarczyk

Izabela Grabarczyk is a research assistant in the Department of Corpus and Computational Linguistics at the University of Lodz. Her research interests include English phonetics and phonology, dialects and accents of English, sociolinguistics, the use of English in migration contexts, and language identity. She also takes part in research and development projects on large language models (PLLuM) and spoken corpora (e.g. DiaBiz and Spokes-Biz). **E-mail:** izabela.grabarczyk@uni.lodz.pl

Dr Maria Szymańska

Maria Szymańska is a linguist affiliated with the University of Lodz. Her research interests include lexical sociolinguistics, linguistic innovation and neologisms, and the representation of gender in language. She has been involved in projects developing NLP resources, such as the Spokes-Biz and DiaBiz spoken corpora and the Polish language model PLLuM **E-mail:** maria.szymanska@uni.lodz.pl

Dr Aleksandra Kujawiak

Aleksandra Kujawiak is a linguist and speech-language therapist. She is an assistant professor in the Department of Contemporary Polish Language at the Institute of Polish Philology and Logopaedics at the University of Lodz. Her research interests include Polish media discourse, contemporary Polish language styles and linguistic correctness. She has worked on projects such as PLLuM, HIVE and CLARIN. **E-mail:** aleksandra.kujawiak@uni.lodz.pl

Dr Beata Bednarek

Beata Bednarek holds a PhD in humanities from the University of Lodz (Faculty of Philology, Institute of Polish Philology, Department of Text Editing). Her research interests focus on the editing of contemporary and Enlightenment-era texts. She is an experienced language editor, data annotator and certified AI tester. She participates in research and development projects related to large language models and NLP tools (HIVE AI and CLARIN). **E-mail:** beata.bednarek@filologia.uni.lodz.pl

Lic. Jakub Kwiatkowski

Jakub Kwiatkowski is a junior researcher involved in several corpus linguistics projects at the University of Lodz (including CLARIN and NCN OPUS History of English phraseology). **E-mail:** jakub.kwiatkowski@filologia.uni.lodz.pl

Dr Maciej Grabski

`Historical Linguistics` Maciej Grabski is a historical linguist specialising in corpus-based investigations of Old and Middle English syntax and morphology. He has participated in the creation of corpus-based tools for the study of Early English (i.e. the VARIOE morphological dictionary of Old English, the MELange morphological dictionary of Middle English) and various corpora (e.g. DiaBiz, DiaBiz-EN and Spokes). **E-mail:** maciej.grabski@uni.lodz.pl

Mgr Sylwia Karasińska

`Historical Linguistics` Sylwia Karasińska received her MA degree in historical linguistics and is currently a Ph.D student at the University of Łódź. Her research areas primarily involve early English morphology and syntax as well as corpus linguistics. She has participated in several research projects on large language models (PLLuM), spoken corpora (DiaBiz, Spokes-Biz) and corpus-based tools for

the study of historical English (MELange morphological dictionary of Middle English).

Prof. Mikołaj Deckert

`Translation and Media Discourse` Mikołaj Deckert is associate professor at the Institute of English Studies, University of Łódź. His research interests are primarily in interlingual and audiovisual translation – including video game translation – as well as in language and cognitive processes, investigated with the use of experimental and corpus methods. He was involved in the CLARIN-PL consortium and contributed to creating resources like PLEC, Paralela and DiaBiz. **E-mail:** mikolaj.deckert@uni.lodz.pl

Dr Marek Molenda

`Learner corpora, data-driven teaching and learning` Marek Molenda received his MA degree in linguistics from the University of Łódź. He has been involved in the development of the PLEC corpus, and he has conducted corpus-based research into spoken language, as used by Polish learners of English. **E-mail:** marek.molenda@uni.lodz.pl

Mgr Zuzanna Deckert

Zuzanna Deckert is an experienced annotator who has been involved in a number of research projects (including CLARIN, PLLuM and HIVE) leading to the creation of various NLP resources (e.g. the DiaBiz and SpokesBiz corpora and the PLLuM model). **E-mail:** zuzanna.deckert@filologia.uni.lodz.pl

Lic. Monika Garnys

Monika Garnys is an experienced annotator who has been involved in a number of research projects (including CLARIN, PLLuM and HIVE) leading to the creation of various NLP resources (e.g. the DiaBiz and SpokesBiz corpora and the PLLuM model). **E-mail:** monika.garnys@filologia.uni.lodz.pl

Dr Piotr Misztela

Piotr Misztela is an experienced annotator who has been involved in a number of research projects (including CLARIN, PLLuM and HIVE) leading to the creation of various NLP resources (e.g. the DiaBiz and SpokesBiz corpora and the PLLuM model). **E-mail:** piotr.misztela@filologia.uni.lodz.pl

Mgr Karolina Walkusz

Karolina Walkusz is an experienced annotator who has been involved in a number of research projects (including CLARIN, PLLuM and HIVE) leading to the creation of various NLP resources (e.g. the DiaBiz and SpokesBiz corpora and the PLLuM model). **E-mail:** karolina.walkusz@filologia.uni.lodz.pl

Founders

Prof. Barbara Lewandowska-Tomaszczyk

Barbara Lewandowska-Tomaszczyk is a graduate of the University of Łódź, where for many years she was the Head of Chair of English Language. Her research interests are primarily in semantics and pragmatics of natural language, corpus linguistics, and their applications in translation studies and lexicography. She has published a number of books and papers in those areas and organised numerous conferences and seminars. Over the years she has been invited to read papers at international conferences and to lecture and conduct seminars at European and American universities. **E-mail:** blt@uni.lodz.pl

Prof. Stanisław Goźdź-Roszkowski

`Language in the Legal Context` Stanisław Goźdź-Roszkowski received his MA and PhD in English Studies from the University of Łódź, where he is Adjunct Professor at present. His research interests are primarily in corpus-based analysis of texts, especially legal and business texts. His other academic interests include written discourse analysis, genre analysis, corpus linguistics and its applications in translation studies and lexicography.

Prof. Jacek Waliński

Jacek Walinski is a graduate of the University of Łódź, where he is now an assistant lecturer in the Department of English Language. He teaches ESP in the areas of Business English and Computer English. His research interests include applications of computers, the Internet, and corpora in linguistics, EFL learning/teaching, and computer-aided translation.

Former members

Dr Krzysztof Kredens

`Forensic Linguistics` Krzysztof Kredens received his MA and PhD in English Studies from the University of Łódź. His academic interests include oral discourse analysis, sociolinguistics, and social applications of linguistics. He is on the Executive Board of the International Association of Forensic Linguists.

Prof. Anthony McEnry

`Head of the English side of the project` Tony McEnery is a graduate of Lancaster University, where he is the Head of the Department of Linguistics and Modern English Language. His research interests are primarily in computational and corpus linguistics, focusing on automatic or computer-aided analysis of texts.

Mgr Łukasz Dróżdż

`Computational and corpus linguistics` Łukasz Dróżdż received his MA in linguistics from the University of Łódź. During his work in various projects, he developed software responsible for Web crawling, information retrieval, RDB and XML import/export, parallel corpus acquisition and alignment, social media analysis, as well as Web backends for the PELCRA group search engines and corpus interfaces.

Mgr Rafał Uzar

Rafal Uzar is a graduate of Lancaster University and the University of Łódź. His research interests are in corpus-aided translation, automated translation tools, and problems in learner English. He has also coordinated several international conferences on corpora, computers, and linguistics.

Dr Agnieszka Leńko-Szymańska

Agnieszka Leńko-Szymańska is a graduate of the University of Łódź. She worked as Adjunct Professor and Head of the Teaching English as a Foreign Language (TEFL) Unit. Her research interests are in psycholinguistics, second language acquisition, and corpus linguistics, especially lexical issues in those fields.

L. Eric Levin, B.S.

`Programmer, Database Administrator and Data Modeler` Eric Levin is a graduate of the University of Oregon. He was responsible for modeling the PELCRA corpus data and developing web applications for the PELCRA project. His main interests also include voice recognition, VoiceXML, and Speech Grammars.
